Education and Qualifications

Chitkara University [2015 – 2019]

- Bachelor in Computer Science (9.02)

Army Public School [2003 – 2015]

- 9.6 CGPA in 10th
- 81% in 12th

Personal Skills

- Strong Listening Skills and Patience Skills
- Able to give best result in pressure situations
- Flexible and actively work in team
- Punctual and enthusiastic in doing work

Technical Expertise

- **Programming Languages:** C, CPP, Java, Python, HTML, CSS
- **Software:** Microsoft Office, JDK, AutoCAD, WAMP, UMLet, MultiSim, Cisco Packet Tracer, 3D Max
- **Database Management System:** Oracle-11g, My-SQL
- **OS:** Windows and Linux

Projects

- **Switching Electrical Devices** with change in temperature.

This was the first Group Project. The thing learnt was to work in group and utilising the hard-work and knowledge of each member of the group. How a small device can be used to see the temperature and another device to handle large amount of current.

- **Login using fingerprint sensor (in Progress):**

The idea was to make a login system which saves the fingerprint data and thus logins while scanning the fingerprint only. The thing learnt was the Backend connection, managing database, working of Fingerprint Scanner and connecting a Third Party application with website.

Selective Interests
